HISTORIC AMERICAN ENGINEERING RECORD
CENTRAL MASSACHUSETTS RAILROAD: LINDEN STREET BRIDGE
HAER MA-46

HAER
MASS,
9-WALTHAM,
5-

Date: 1894

Location: Spanning Linden Street, Waltham, Massachusetts

Designed by: Unknown

Owner: Boston and Maine Railroad

Significance: This lattice truss bridge was built for the Central Massachusetts Railroad in 1894. The bridge is typical of nineteenth century metal truss bridges which were built for the railroads. The Linden Street Bridge has a clear span of 92 feet between granite abutments, and is almost 20 feet above the road surface.

Transmitted by: Monica E. Hawley, Historian, 1984
